ABOUT ME

Professional with wide experience in psychology, neuroscience and neuropharmacology, including teaching, lab management, investigation and scientific literature review, backed by a track record of peer-reviewed publications. Proven expertise in critical thinking, data interpretation, scientific writing and reporting (in english and spanish), including the next skills: quick learning, adaptability, self-direction and time management.

LABORAL EXPERIENCE

Psychology Practicum Student | March 2026 - Present

- Conductment of clinical assessments, psychological evaluations and psychotherapy with psychoanalytic approach, documenting clinical findings and maintain regulatory compliance in patient records at the Psychological Services Clinic, Universidad Andrés Bello.

Neurochemistry and neuropharmacology lab manager| June 2023 - August 2025

- Management of laboratory operations and cross-functional teams, including laboratory supplies and equipment administration for neuroscience and pharmaceutical research.
- Analysis and interpretation of clinical trial data from rodent models (Sprague Dawley and C57BL/6.).

Teaching | 2020 - 2022

- Preparation of comprehensive reports and educational materials using MS Office and digital platforms for: Particular physiology classes to nurse students, 2022 and Titular professor of Histobiology at Universidad de Viña del Mar - Career: Obstetrics and Childcare - 1 semester with theoretical and practical classes | 2020.

Laboratory management | 2017 - 2018

- Cognition Neurophysiological laboratory and Neuronal plasticity laboratory at Universidad de Valparaíso | 2017 - 2018.
- MMBA laboratory at the Chemistry department at Universidad Técnica Federico Santa María - Bacteria and genetics: Burkholderia xenovorans LB400 | April 2017.

6 peer-reviewed scientific articles published | 2017 - 2022

- Published articles about neuronal circuits and neuropharmacology of obesity, addictions, neonatal programming and more in different Scientific journals: Frontiers in Neural Circuit, Frontiers in Pharmacology, Journal of Neurochemistry, Behavioural Brain Research and International Journal of Molecular Sciences. 1 additional article in pre-print format.
- Use of pharmaceutical terminology in daily operations and developing strategic insights for evidence-base investigation.

Scientific conference presentations | 2016 - 2019

- Scientific poster presentation about Optogenetics and Neuropharmacology as Principal autor at Anual Congress of Neuroscience Chilean Society: "Optogenetic stimulation of prefrontal cortex pyramidal neurons during acquisition of spatial reference memory" and Anual Congress of Pharmacology Chilean Society: "Neonatal administration of estradiol valerate and testosterone propionate alters the development of addictive-like behaviors induces by methylphenidate in adult rats" (Published Article) | 2018

EDUCATION

Universidad de Valparaíso

Master in Biological Sciences, with mention in Neuroscience

2023-2025

Finishing Doctoral Thesis in Neuroscience - Present

Universidad Andrés Bello

Psychology Student , with Bachelor in Psychology since June 2026. Currently completing final professional clinical practicum as part of the Psychology degree.

2023 - Present

Colegio Alemán de Valparaíso

Junior, Middle and High School.

- International Baccalaureate in German, English and Spanish | 2010-2012

LANGUAGES

- **German:** Native language (C1 certification)
- **Spanish:** First language
- **English:** Professional Working Proficiency - B2
- **Japanese:** Medium (N4 certification)

SOFTWARE

- Microsoft Office: Medium (Word, Excel, PPT)
- Any-Maze, Image J, Artemis, GraphPad Prism: High
